Education Update

I wanted to take a couple minutes to update you on a couple things that are going on with our classes. The curriculum we are using is called Bible Study Guide For All Ages. It was selected by people here at Sunshine and approved by the elders. This curriculum is being used by many churches. It is proven to work and allows us to cover the whole Bible in four years. One thing that it also does is allow the whole congregation to study the same thing at the same time, which is a huge opportunity for our families to grow together.

Beginning soon-one time per month on Sunday evenings we are planning to get the kids together in a larger group setting in the annex to learn together. During these classes an elder will visit the group and introduce himself and talk to the kids about various topics. The purpose of this is to bring a better understanding of who the elders are and what an elder's role consists of. In these moments we are hoping to cover the current Bible lesson and topics such as mentorship, singing/worship, and allowing the kids to ask questions they may have. Teachers of these classes are welcome to be involved but will have an option for a break on those evenings.

We are blessed with many wonderful teachers that pour their hearts into our children, but this must not be taken for granted. Teachers are always needed and we want to support anyone with a desire to teach by mentoring them or offering an opportunity to teach a class. We want to have enough people teaching so that no one feels "stuck" or taken advantage of and so our children are getting a fresh perspective in their classes. Our children are our biggest joy and the investment of time with them will more than pay off. The body cannot function unless all the parts work together. Please prayerfully consider areas where you would like to serve. You may not be a teacher but may be able to help in other areas and I know we are in need of people to step in and help in many areas.

Someone recently told me that “we must be intentional with our children”. I thought that was a provoking statement and the more I think about that it makes me think that if **we** are not teaching them then someone else will.
