Building For The Future

In an effort to keep the congregation as informed as possible, the elders would like to make you aware of some possible changes coming...

In June 2011 the congregation here at Sunshine purchased a piece of property (11.6 acres) formally known as "The Grove" just to the north of our current location along State Route 335. This property was purchased in hopes that in the future we would be able to use this to construct a new building and to help support the crop program that was, at that time, a growing need. Although this wasn't an ideal location because of accessibility and size, it was our best option as we dreamed about the future. In May 2013, the Scioto County Commissioners came to us with a proposal to purchase this same property for a considerable amount more than we originally paid to be used as a site for the Minford Sewage Plant. We decided it would be in the best interest of the congregation to sell at that time.

Two years later, in April 2015, the congregation was offered an opportunity to purchase the property adjoining our current location just to the south on State Route 335, and we did so. This is the current property where Wayne and Irmalee Gampp reside. Although the congregation now owns the property, Sunshine Congregation and Wayne and Irmalee have a Life Estate agreement in place. This property was purchased with the funds acquired from the sale of the land to the north on State Route 335 along with money that had been saved from previous building fund drives as well as funds earmarked specifically for this purpose.

In an effort to grow this congregation both spiritually and physically, we have consulted with professionals that understand the ever-changing footprint of church growth far better than any of us ever will. Several changes were recommended to us for a Church of Christ our size in our demographic area through this process. Some we have already implemented by hiring a full time office manager and going to a two service format on Sunday mornings. Both have proven to be helpful and successful. Another recommendation was to beautify/modernize the front of our church building. This is where we are now. We have hired a professional architect/consultant to design for us a plan to add on to the front of our building. This plan would include a new larger modernized foyer, restrooms and some office space while giving the entire front of our building a new look and feel.

Building For The Future Continued...

Why now?? We feel the Lord has answered our prayers for direction and guidance through the availability and acquisition of the property to our South. This is not a temporary fix... This will allow us to make provisions within this upgrade to hopefully some day soon be able to build a larger sanctuary that will adjoin our current structure on a portion of what is now our parking lot. And we get to stay in the same location that we have been for over 100 years! Also, the front of our current structure is in need of some rather extensive repair that would be remedied by this project. Time, weather and moisture has taken its toll on the structure in and around the stained glass portion of the front of our building.

What can you do?? Pray... Pray that our congregation will continue to grow both spiritually and physically. Pray that we will be able to reach the people of our community with the grace, mercy, goodness and love that was shown to us through our Lord and Savior. Pray for us, that we continue to look above for guidance and that we do and say everything in accordance with His good will. And lastly, pray that the Lord will provide the funds and way to make this happen.

The Elders

Have a wonderful day! :)
